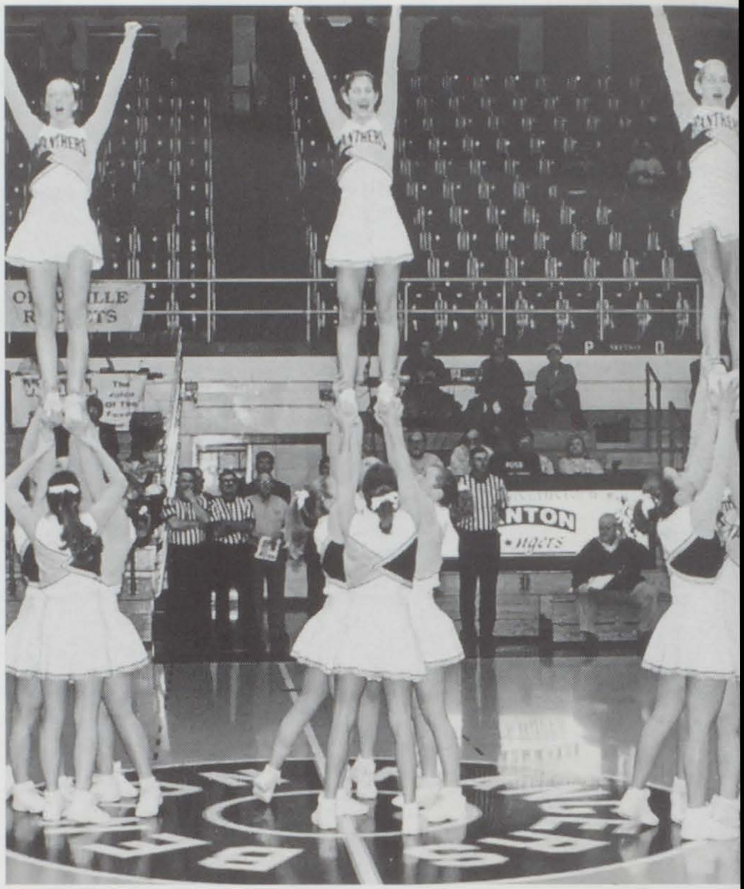
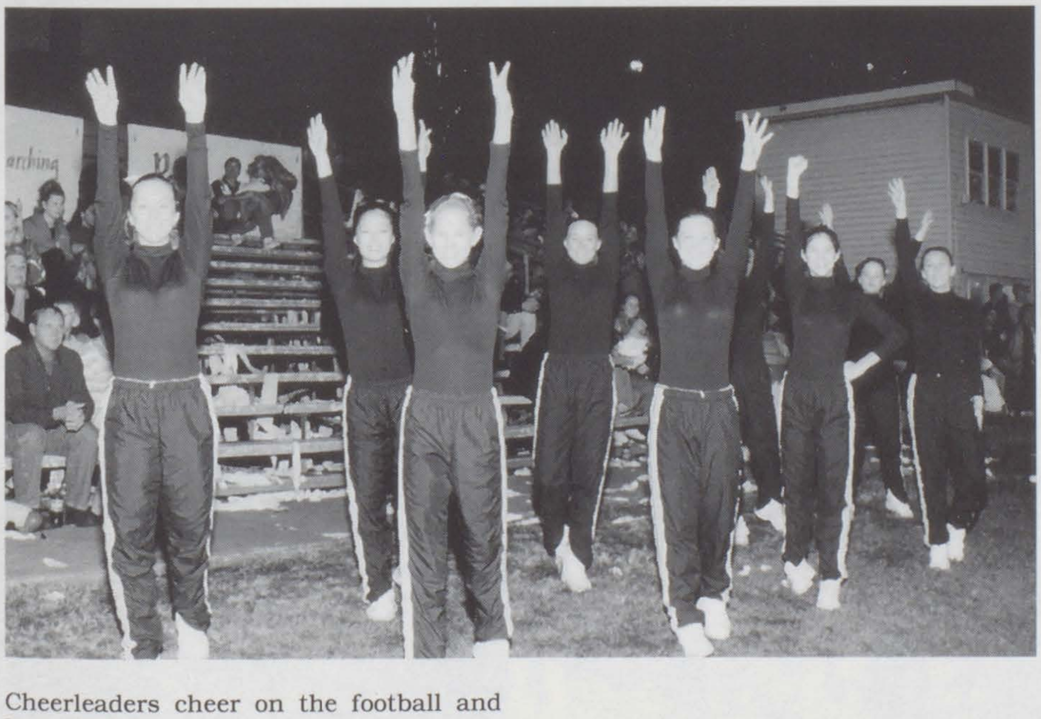
Cheerleaders Take Tenth In State



CHEERLEADING
COMPETITION

A tightness in our chest
Yearning to be the best
Nervous and breathless
Going on to perform
For knowledge of our routine
We know we can be
The best of the best
And achieve all our dreams
But to be the very best
You must want to succeed
For if one goes down we all go down
That's why we must stick together
And motivate one another
To strive to be the best
To try our very hardest
So we all may achieve our dream



Cheerleaders cheer on the football and basketball teams.

This season the cheerleaders placed first at Springfield State Fair, second at an O'Fallon competition and qualified for a state-wide competition where they placed tenth in the state of Illinois.

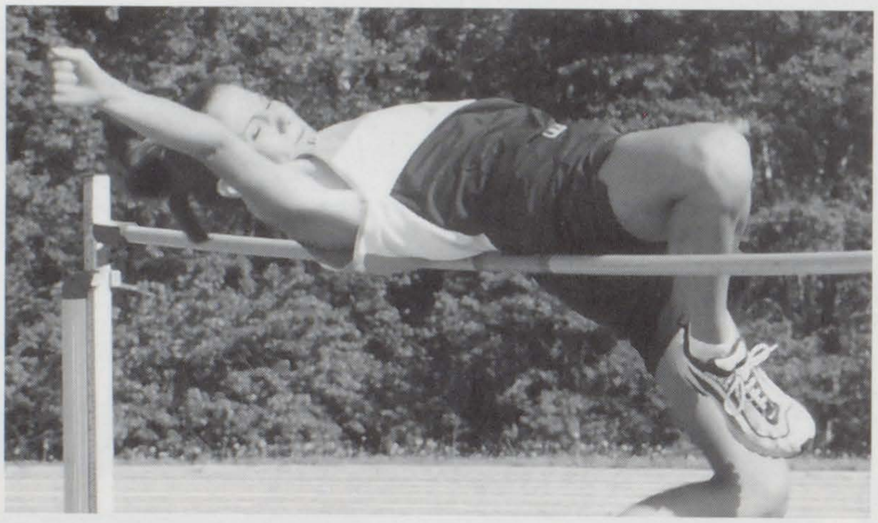
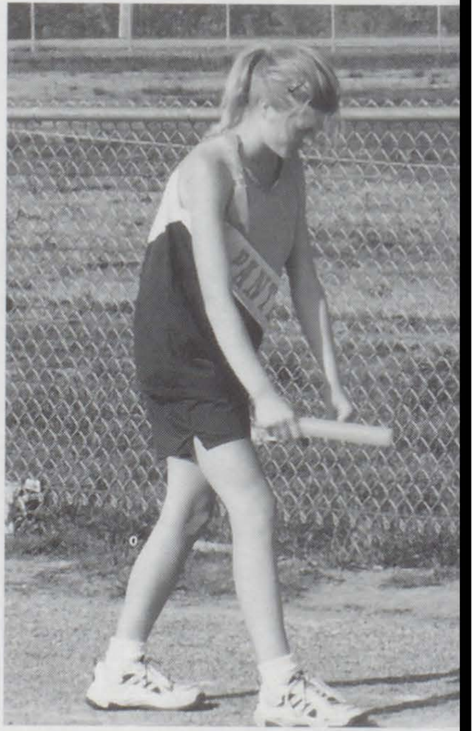
Freshmen Start With New Coach

Girls' Track Improves Run

Eight Lady Panthers tracksters qualified for the Meet of Champions by finishing in the top 12 on the Southern Illinoisan's honor roll list, showing improvement for Coach Byron Stricker's squad. Bekki Hagene, Paige Pestka, Jessi Paszkiewicz, Monica Ruppert qualified in individual events as did the 3200 relay team of Nicole Kuhnert, Brittany Epplin, Marie Buschschulte, and Heather Theobald. Coach Bill Shepard also helped lead the team in the early part of the season.

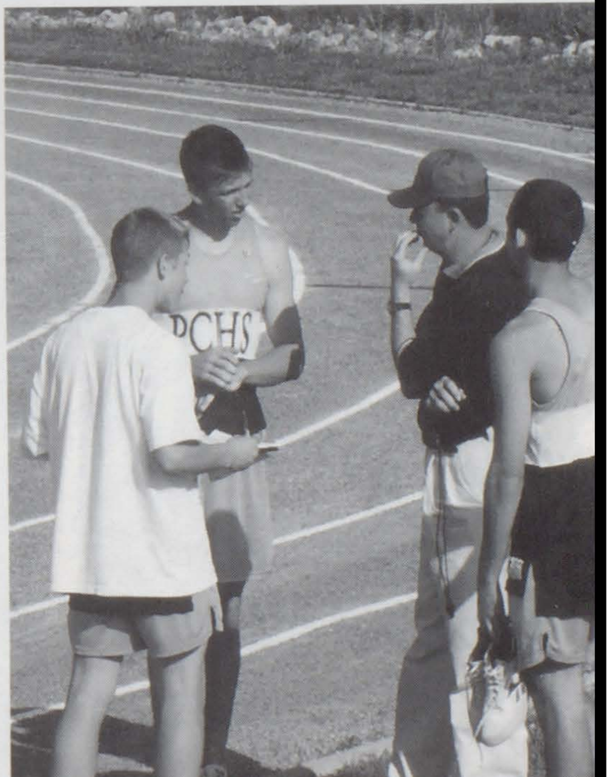




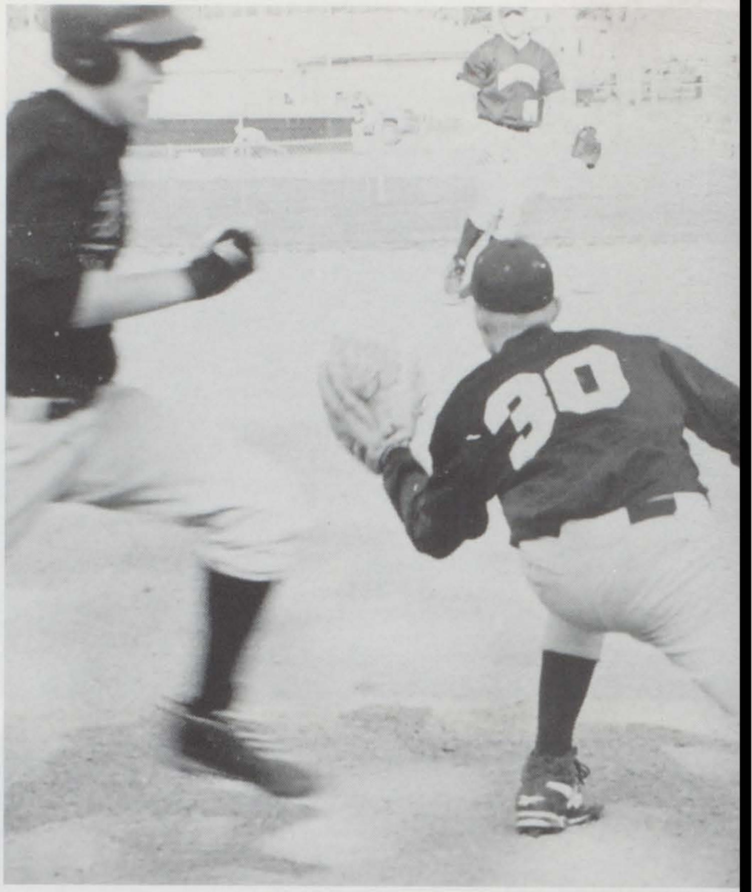
Boys' Track: Four To State

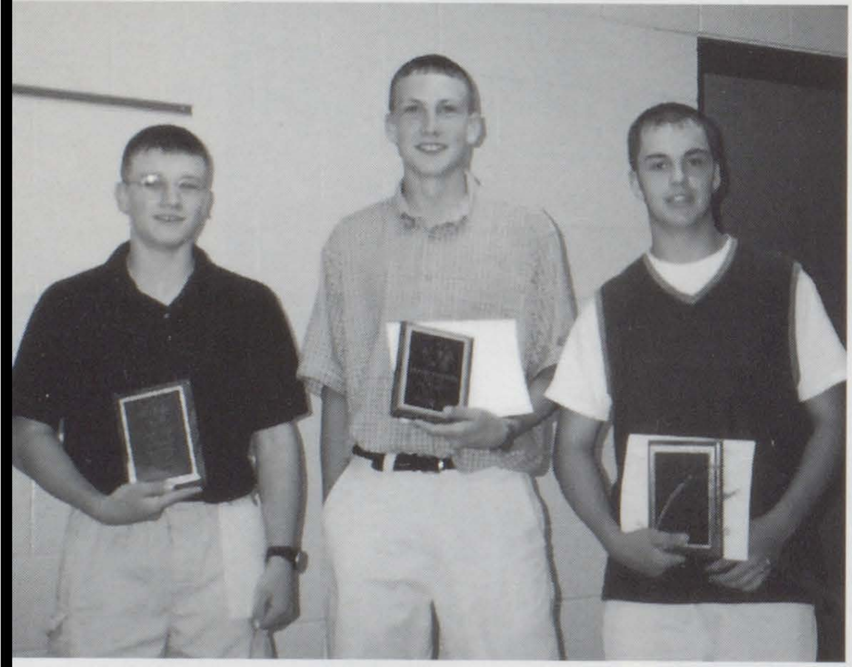
With only two seniors, Brandon Bass and Alan Brand, the boys' track team stretched out to success on the efforts of underclassmen. Brandon Bass, Gideon Hutchcraft, Jimmy Shirley, and Tarik Swenson were the winners at Sectional that qualified them for the State Meet at EIU.

Hurdler Jimmy Shirley was named All-South at the end of the season.

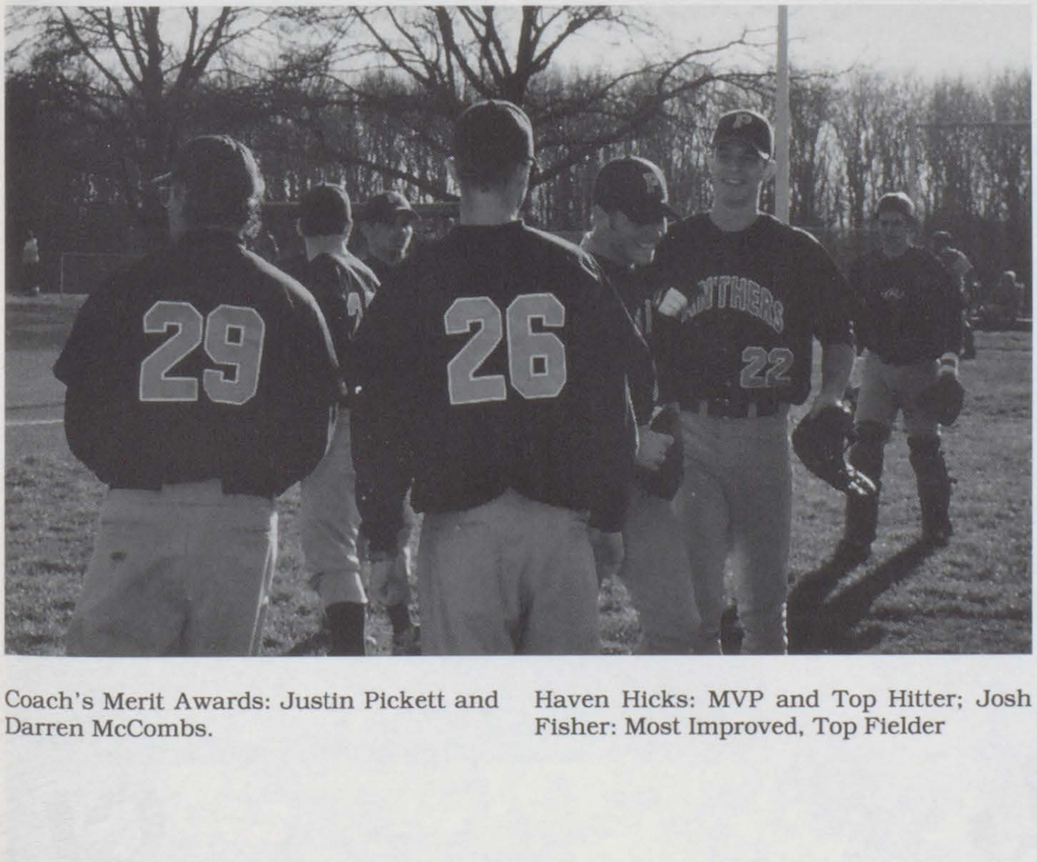


Baseball Gains 3 Wins Each — V, JV





JV Baseball, under first year coach Mike DeNault, were led by award winners: Joe Gill, Leading Hitter; Michael McConachie, MVP; Chad Maxey, Top Fielder. Not pictured are Shyler Mathis, Most Improved Player and Tyler Hafford, Coach's Merit Award.



Coach's Merit Awards: Justin Pickett and Darren McCombs.

Haven Hicks: MVP and Top Hitter; Josh Fisher: Most Improved, Top Fielder

Varsity Baseball team gained a season's highlight win over Chester among their three wins under first year coach Gary Suhr.

Haven Hicks and Austin Marlow were second team all-conference selections.

Panther Softball Best Record 37-3

In amassing the Lady Panthers' best record in school history, claiming third place in the state tournament at Pekin, the team succeeded in winning the Panther Classic and P'ville Invitational Tourneys, topping the River to River Conference for the 13th straight year, and taking the P'ville Regional and the Columbia Sectional crowns. Of the 37 wins, 16 were one-run victories for Coach Hale's crew. He reached a miletone with his 400th victory as head coach in his 17th season.

The Southern Illinoisan named Panthers' top pitcher Victoria Ramsey as the best player in its list of All-South team members. Also named to the elite group were Brandy Houghland, Melanie Sloan, and Jill Pursell. Victoria earned many records along the way including a miniscule .087 ERA, best in Panther history, tying her own record of 24 wins set last year, and claiming the 2nd best W-L % at 24-3, and 4th all-time with 207 strikeouts in one season.

State, Next Steps Highlight Sports

The Lady Panther Softball Team's 3rd place finish in the State Tournament was one of many Y2K sports highlights. The team is shown in their return celebration to P'ville following the June 1-2 weekend tourney. Boys Track had State Qualifiers in Gideon Hutchcraft (11th in 100M dash), Brandon Bass (#13 in Long Jump), and Jimmy Shirley (#13 in 110M High Hurdles). PCHS' 400M relay team qualified with those three runners and Tarik Swenson, and Sean Corless substituted for him at state (team #31 of 48 qualifiers). Lady Panther basketball standout Paige Pestka earned a John A. Logan scholarship; Bekki Hagene, a track scholarship to Murray State.

FFA Week Rocks; Mock Weddings Roll

THOMAS GYMNASIUM

The week of George Washington's birthday brought FFA activities to PCHS. Some of the week's highlights were Mr. Bruns and Mr. Ehlers, Ag student teacher, "winning" the Kiss the Pig contest, Mr. Loiacono, James Fred and Curtis Miller dominating the hay bale toss, a faculty breakfast prepared by some FFA members, and Mr. Robb's special Hawaiian outfit.

Mrs. Hatch's Adult Living classes held Mock Weddings to culminate class activities; the fall semester class used traditional-formal dress, and spring going festive-tropical for dress and activities. Both were learning experiences for students and were enjoyed by other students, faculty, and family alike.

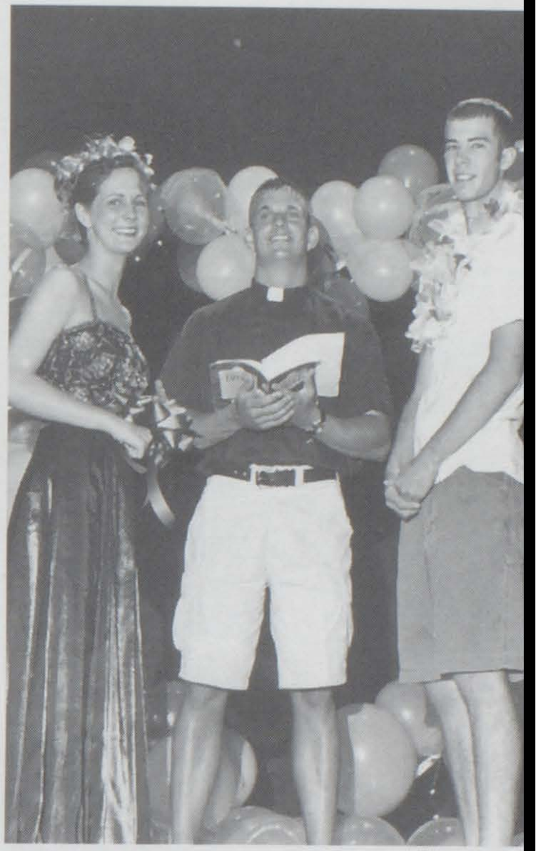
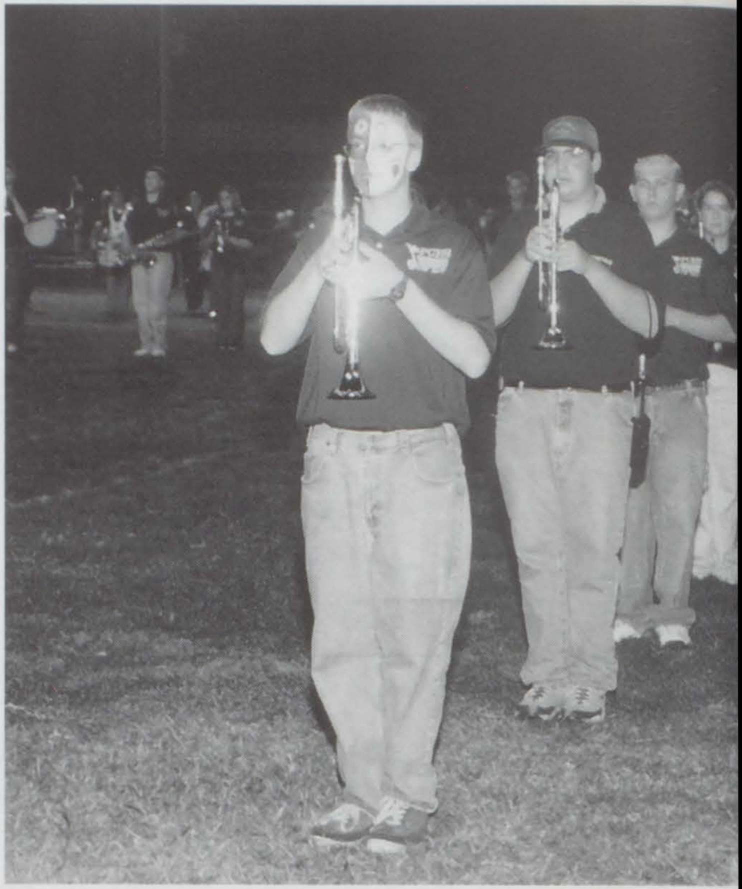
Lauren Hottes and Beau Marlow were the bride and groom for the "spring fling" wedding, with student teacher Mr. Ehlers performing the ceremony.



A West Lawn reception completed the spring ceremony, complete with punch and cake made by food service classes.

Band/Music Makers Perform In Events



Homecoming, Valentine's Day, Kiel Center Shootout, Christmas and Senior Recognition Concerts were some highlights for PCHS musicians to entertain crowds of area fans and well-wishers.

Honors, Awards For Band, Chorus

Nicholas McClay received the John Philip Sousa award from Mr. Cannedy.

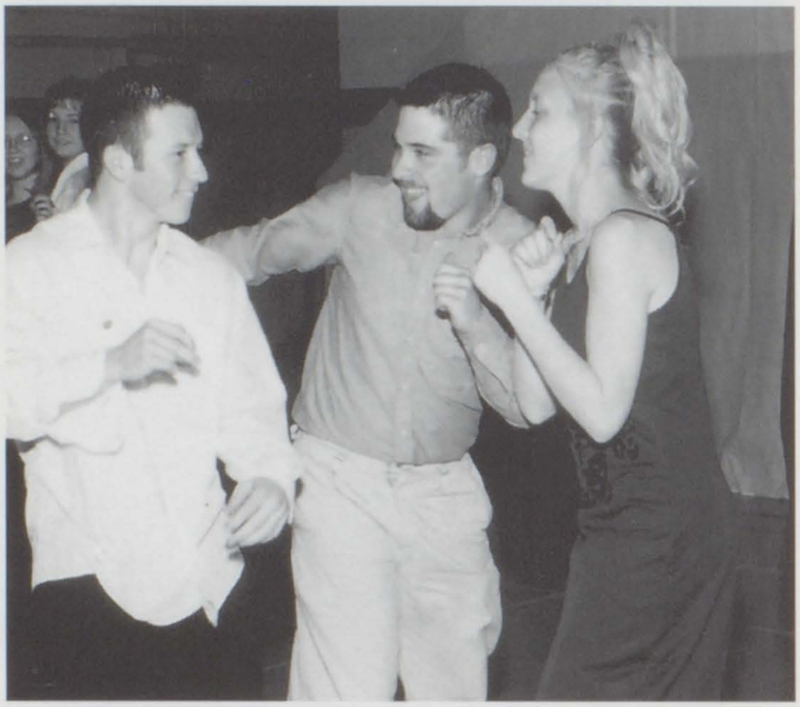
Haley Queen was given the National School Choral Award by Mrs. Cunningham.

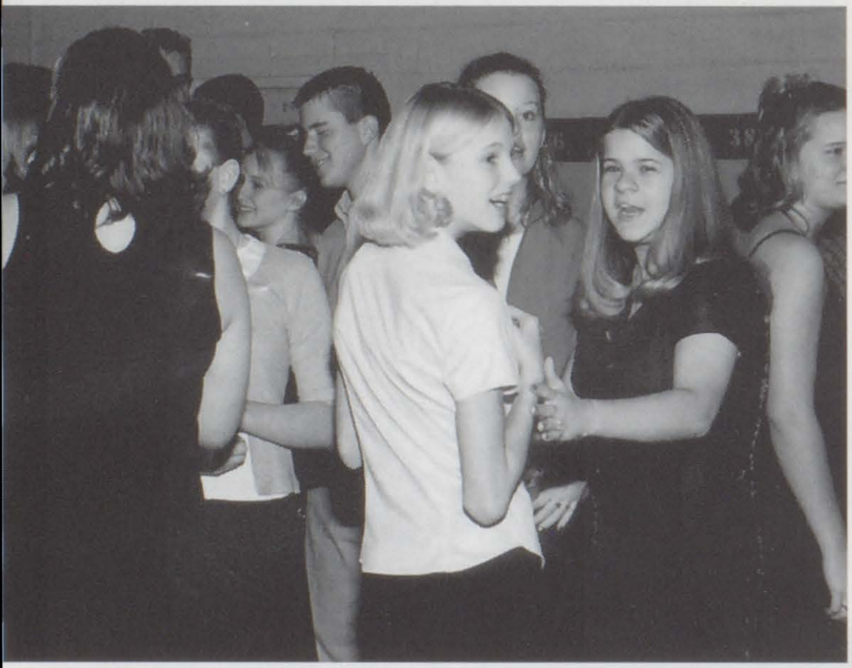
Michelle Hastings was awarded the 2000 Outstanding Marching Bandswoman.

Eric Rieckenberg was awarded the 2000 Outstanding Marching Bandsman.

Dr. Thomas Bough, SIU tuba instructor, was guest soloist for the Senior Recognition Concert in May.

Sweetheart Dance: Combined Sponsors





FFA and VICA organizations and Child Care Occupatioins (CCO) class combined to sponsor the Sweetheart Dance in February. Members of the groups were dance royalty with Kelli Hagene being crowned Queen.

NHS Inducts 29; Serves Community

Twenty-nine new members joined the 35 seniors serving as members of National Honor Society. Based on the qualities of leadership, scholarship, character, and service, members serve the school and community by participating in various projects, including tutoring, donating to local food pantries, and volunteering time to school, hospital, and nursing home, as well as sponsoring two Red Cross Blood Drives held at PCHS.

What On Earth Happened?

AP/Wide World

AP/Wide World

The world spent much of the past thousand years making some pretty amazing history. As the millennium began, Druids practiced dark rituals, while the Byzantine Empire dominated Eastern Europe. Conqueror Genghis Khan put the Mongols on the map in the 1200s, and the Great Wall protected China against would-be invaders.

The Middle Ages, though plagued by feudalism, heralded gallant knights and the governing ideals of the Magna Carta. The Renaissance and The Enlightenment both saw great achievements in art, science and exploration, followed by Romantic and Revolutionary periods in France and colonial America.

As industry and capitalism grew, so did Communism in the Soviet Union and beyond. The World Wars and other 20th century conflicts brought struggles for power amid vast advancements in communications and technology.

History's movers and shakers included Joan of Arc, the teenager who led France to victory against England in 1429, and Martin Luther whose religious reforms shocked the 16th century. King Henry VIII of England kept his head while several of his spouses lost theirs. Sir Winston Churchill helped England stand courageously against Nazi Germany. One recent hero is Nelson Mandela, South Africa's first black president and anti-apartheid activist. Time marches on...and the next chapter is already being written.

And The Wall Came Tumbling Down

In 1961, the Berlin Wall was erected to prevent residents of Communist East Berlin, Germany, from fleeing to non-Communist West Berlin for a better way of life. In 1989, the East Germans opened the Wall, lifted immigration restrictions and reunited Germany. Tearing down the Wall symbolized the end of the Cold War, which started when the Soviet Union created "Iron Curtain" countries isolated from the Western world. In the '50s, fear of communism in the United States resulted in the "Red Scare."

...With A Star On Top

The Christmas tree began as an evergreen decorated with apples, symbolizing Eden in a December medieval German play. By the 1600s, trees in German homes were trimmed with candles, fruits and cookies. Currently, Christmas is a multi-billion dollar business with wreaths, mistletoe, stockings, movies, outdoor decorations and cards.

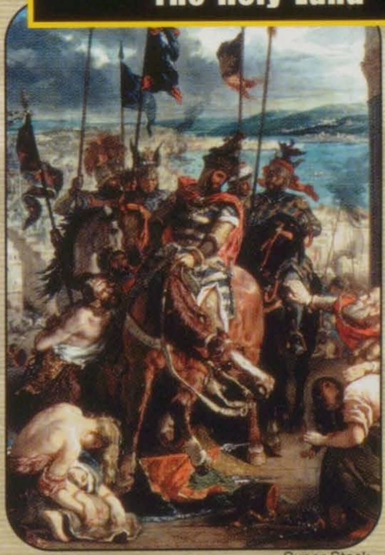
In A Flash, A-Bomb Creates Nuclear Age

On August 6, 1945, a U.S. plane, the Enola Gay, dropped an atomic bomb on Hiroshima, Japan, annihilating the city and nearly 130,000 of its citizens. Japan surrendered soon after, ending World War II. Because of Japan's attack on Pearl Harbor, resulting in America's participation in the war, and the Holocaust atrocities perpetrated by Adolf Hitler's Nazi Germany, the destructive effects of World War II would live in infamy.

Crusading Towards The Holy Land



Super Stock

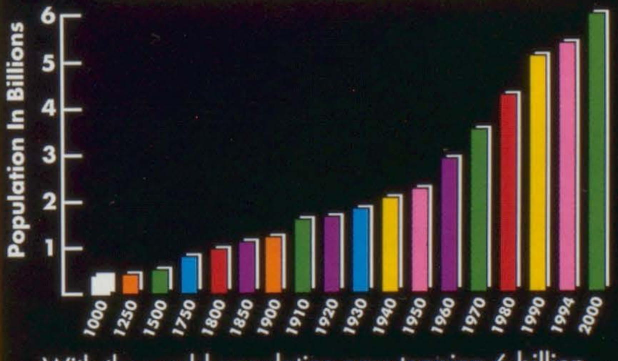
When Muslims took control of the Holy Land during the Middle Ages, Christians from Western Europe vowed to recapture the area. Nine major Crusades were organized with kings, nobles, peasants, and even children taking part. None was successful. Holy wars have continued to rage in such places as the Middle East, including the Six-Day War between Israel and Egypt in1967.

The Royal Flush

AP/Wide World

Where would the Ty-D-Bowl Man and bathroom libraries be without the flush toilet? After septic tanks and modern sewage systems were improved, civilizations significantly reduced the risks of severe illnesses and epidemics which were so common during the Middle Ages. Concerns prompted public health improvements, including garbage collection and disposal, water treatment and food processing.

Setting Off An Explosion



With the world population now topping 6 billion and increasing at an annual rate of 1.6%, more people are living now than have ever died. The population is rising because of high birth rates coupled with much lower death rates as a result of better living conditions.

Super Stock

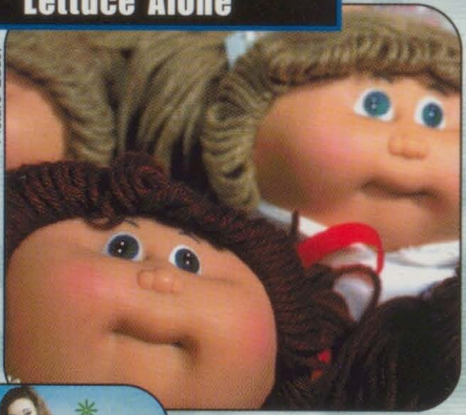
With the correct hip action, the bright round plastic Hoola-Hoop could rotate for hours. When Wham-O introduced it in 1958, stores couldn't keep Hoops stocked and sales topped $100 million. Who could forget Yo-Yos, Super Soakers, Slinkys, Pogo Sticks, Clackers, Wiffle Balls, Silly Putty, Frisbees and all those other preoccupying pastimes?

The Answer, My Friend, Is Floating In The Ball

"Outlook Good." "Yes Definitely." In the '60s, important decisions were made by turning over the Magic 8 Ball or putting fingers on the Ouija board. Holy Dionne Warwick! Perhaps these were even more reliable than the Psychic Friends Network. Through the ages, fortune tellers and the supernatural have fascinated seekers of the unknown. Was all this stuff for real, oh Magic 8 Ball? "Don't Bet on It."

The Craze That Wouldn't Lettuce Alone



Picture Quest

The threat of war may have loomed in Lebanon, but the real fighting broke out in toy stores between frenzied parents who found Cabbage Patch Kids in short supply before Christmas in the '80s. No sooner had consumers recovered from this invasion when they were hit with Power Rangers, Tickle Me Elmo, Beanie Babies and Furby manias.
Dolly, can you say "Buy, Buy?"

She's Got The Skinny On The Mini

Reuters

The miniskirt caused a sensation in Swinging '60s London and beyond. The mini series led to the ultra-short micromini, ankle-length maxiskirt, calf-length midiskirt, hot pants and virtually every look ever shown in music videos. Hemlines have risen and fallen throughout history—from hoop skirts and gowns to '20s flapper dresses.

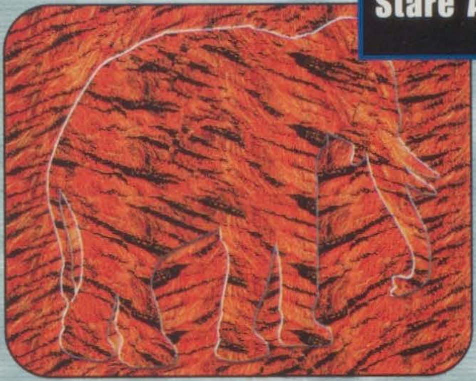
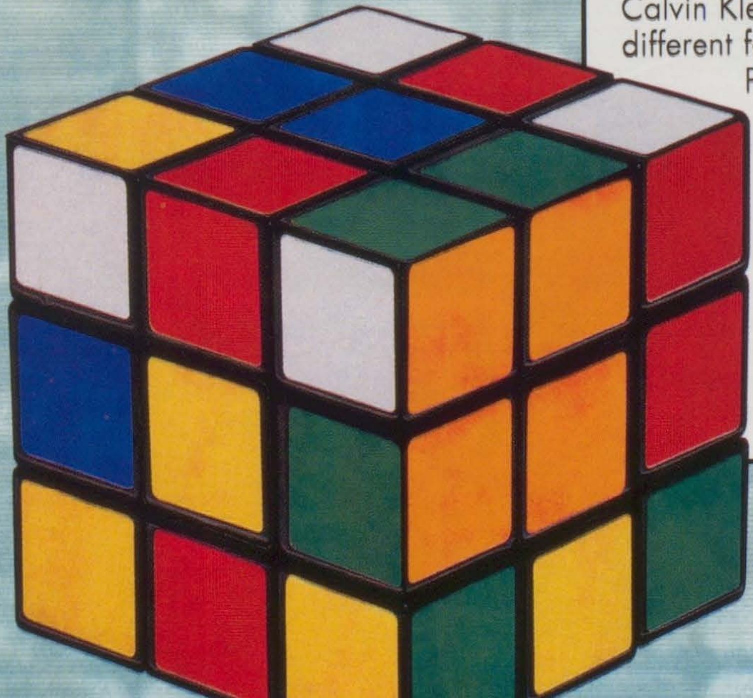
Stare And Stare Alike



The 3-D thrill of the Viewmaster was love at first sight. Then along came Magic Eye, random dot stereograms that revealed 3-D images hidden in colorful graphics with holograms that practically jumped out. Life had become a virtual reality.

As The Rubik Turns

More than 200 million people twisted their way to the 3-D solution of the Rubik's Cube puzzle in the '80s. Some tried memorizing the cube's configuration while it was still in the package. Preoccupation with puzzles dates back to the first jigsaw puzzles in the 18th century. The world is still trying to solve crosswords, word searches, *"Where's Waldo?"* and other brain-busting challenges.



That's Pretty Fad-tastic!

Leaders. Followers. The millennium caught every generation a bit off-guard, but folks quickly had the lingo and the look down. When Elizabethan life got ruffled around the collar, everyone copied. Then poof! Powdered wigs, some several feet high, got nobles noticed in the 17th century. How about wooden teeth in Washington's time? By George, it beat having none at all!

As the years passed, women wore the bustle and disco freaks did the Hustle. The '50s poodle skirts bred '70s dog tags, '80s spiked dog collars and '90s Old Navy mutts. Who knew there'd be just as much fur-vor over Davy Crockett coonskin caps in the '50s as with raccoon coats in the '20s?

Only the Magic 8 Ball knows for sure.

Arts Imitate Life

Nearly every civilization during the millennium expressed its culture and defining events through art and architecture. Great painters, musicians, authors and sculptors vividly captured the emotions of their day. Early Romans built coliseums and staged comedies. Byzantine mosaics and icons reflected Eastern Christian beliefs while Chinese painters produced deft landscapes.

The Middle Ages fostered the rise of Gothic cathedrals, poet Chaucer's "*Canterbury Tales*" and finely woven tapestries. In the Renaissance, William Shakespeare pumped up a volume of still-popular plays.

Michelangelo busily sculpted his marble marvel *David*. Novelists such as Jane Austen characterized the Romantic Movement of the 18th century while the 19th century promoted Impressionist painter Monet, socially-conscious authors including Charles Dickens and the riverside adventures of Mark Twain.

Ballet legend Nijinsky leaped on the 20th century arts scene. Picasso broke with tradition to pioneer Cubism and Dali turned dreams into surreality. Don't forget Dadaism, Mamaism and Norman Rockwellism. Opera was a trill a minute with stars including Beverly Sills and Luciano Pavarotti.

Stephen King and Ann Rice chilled with horror novels, while Ernest Hemingway and John Steinbeck proved more down-to-earth. Broadway was Neil Simon-ized, then "Lion King"-ized.

Deep Thought Number 2,714

When 19th century French sculptor Auguste Rodin created his bronze work, *The Thinker*, he used his knowledge of anatomy and movement to capture intensely human emotions as great Renaissance and Baroque sculptors Michelangelo and Bernini had done before him. Many 20th century sculptors crafted more experimental works, such as Marc Chagall's mobiles and Marcel Duchamp's creations from discarded materials.

Smile. You're On Canvas Camera

Renaissance master Leonardo da Vinci's 1503 portrait of Mona Lisa, the wife of a silk merchant, was extraordinary with its dramatic dark/light contrasts and ultra-mysterious smile. A face immortalized in history was a cinch if one happened to know such artists as Rembrandt, Van Gogh, Toulouse-Lautrec or Wyeth. Many painters, however, opted for religious scenes, still lifes and landscapes.

Norwegian Edvard Munch's 1893 painting, *The Scream*, was an anguished cry of isolation and fear that influenced the 20th century Expressionist movement and reminded us of our own stressed-out lives. Vincent Van Gogh and Edgar Allan Poe were among other desperate artists and authors of the time.

Willie Make It Now?

AP/Wide World

Sixty-year-old Willie Loman spent his life way out there in the blue, riding a smile and a shoeshine, a salesman extraordinaire. Arthur Miller's drama, "Death of a Salesman," became one of the most riveting plays ever staged as it questioned the American dream and explored the depths of failure. During the 20th century, audiences have witnessed other gripping dramas such as "A Raisin in the Sun" and "The Glass Menagerie."

Clawing Its Way To The Top

After Andrew Lloyd Webber picked up T. S. Eliot's *Old Possum's Book of Practical Cats* at an airport, he grabbed the theater world by the tail as creator of "Cats," history's longest-running musical. The 20th century set the stage for vaudevillian singing and comedy acts, as well as some of the greatest musicals to hit Broadway: "Showboat," "Porgy and Bess," "Phantom of the Opera," "Hello, Dolly!" and "The Lion King."

Andy Warhol did much "Mmm' Mmm! Good! for the art world when his silkscreen print, "32 Campbell's Soup Cans," was exhibited in 1962. From there, the white-haired artist commented on popular consumer culture, coining the term "Pop Art." His other creations involved striking images of mass-media icons Marilyn Monroe and Elizabeth Taylor. Warhol helped other pop artists including Roy Lichtenstein and Leroy Neiman, enjoy their 15 minutes of fame.

Sometimes You Feel Like A Nutcracker

In 1892, Russian composer Peter Tchaikovsky turned the *The Nutcracker* into a beloved holiday ballet with his remarkable suite. Twentieth century dance gained popularity as composers wrote musicals that were imaginatively choreographed, including George Gershwin's "An American in Paris." Music and dance partnered dramatically with the Tango—followed by the carefree Charleston, Fred Astaire and Ginger Rogers' ballroom elegance, the Jitterbug, the Twist and Disco.

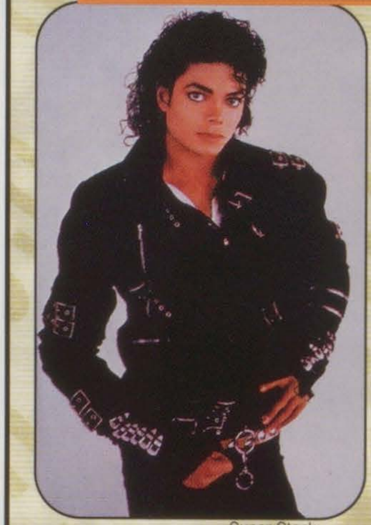
Music of the millennium started on a somber note with the Gregorian chants of monks and ended on samba, "La Bamba" and "Living La Vida Loca." French troubadours roamed the countryside with poems and tunes in the Middle Ages. Lutes and flutes added richness to the Renaissance, while chamber music was Handeled well in the Baroque period.

Beethoven, Mozart and Tchaikovsky crowned the classical music of the 18th and 19th centuries. Strauss then waltzed in to share the spotlight and Sousa marched over to greatness. The birth of the Blues and Jazz brought Billie Holiday and Duke Ellington, followed by Big Bands and the easy-going Swing era.

With a twist and shout, Rock & Roll cruised in from Elvis Presley, Chuck Berry, Jimi Hendrix, KISS and Aerosmith. "We Are the World" provided musical relief and Farm Aid helped heal the heartland. Patsy Cline and Willie Nelson added that country twang, Sinatra made the songs so smooth, and folks listened happily ever after.

From Motown To Moonwalker



Super Stock

The Gloved One's 1982 "Thriller," containing such hits as "Beat It," became the best-selling album ever. Before the rhinestones, there was Detroit's Motown label, which signed Michael and his Jackson 5 brothers when he was still learning his "ABCs." With the toast of '60s soul—The Supremes, The Temptations, The Miracles, Stevie Wonder—music couldn't get mo' betta than Motown.

It Came From Deep Inside The Jukebox

"Put another nickel in" beckoned the jukebox, the first electrically amplified automatic phonograph. From the 1930s to the 1960s, it held memories of teenage years and breakup tears. Covered in chrome, the jukebox magically queued up that special 45. The transistor radios, 8-tracks, CD jukeboxes and discmans that followed just couldn't carry a tune quite as well.

Louis Armstrong blew away the competition with his virtuosity on jazz cornet and trumpet. New Orleans-born Satchmo (his cheeks puffed like a satchel when he played) became one of the greatest jazz musicians of the 20th century with recordings like "West End Blues." His wordless "scat" singing influenced other jazz greats such as Ella Fitzgerald. Dixieland Jazz, Boogie-Woogie, Beebop, Cool Jazz and Electronic Jazz have carried on the tradition.

Betcha dollars to jelly donuts that Elvis Presley will always be the King, with his swivel hips and voice that thrilled fans on *The Ed Sullivan Show* and the big screen. He burned up the charts with hits like "Hound Dog" and "Jailhouse Rock." He also popularized Las Vegas casinos with his shows, spawned Elvis impersonators and sparked kitschy trends like Graceland's jungle prints, shag carpeting, flashy jumpsuits and long sideburns. Thankyuhverymuch.

The Wild, Wild Woodstock

AP/Wide World

The Woodstock Music and Art Festival, an Upstate New York be-in that hosted music's grooviest stars from August 15-17, 1969, was to be the largest rock concert ever. An unexpected 500,000 fans, from hippies to anti-war protesters, braved traffic jams to witness this far-out trip guided by legends including Jimi Hendrix, Jefferson Airplane and Janis Joplin. Not bad for a single day's ticket price of $8. Woodstock later inspired such mega-concerts as Lollapalooza and Lilith Fair.

Don't Cry For Her, She's Madonna

Who was this sexy singer who burst on the scene in her 1984 "Like a Virgin" video? Madonna set off a wannabe frenzy. Changing her look and style like a chameleon, she proved no one-shot wonder, continuing to wow audiences with her music, dancing, acting, tours and business sense. She also paved the way for other exciting female rock acts including Janet Jackson, En Vogue and Alanis Morisette.

How'd four lads from Liverpool turn the music world on its ear? Once "I Want to Hold Your Hand" and a string of Beatles' hits reached #1, teens screamed for more. Going After A Cure

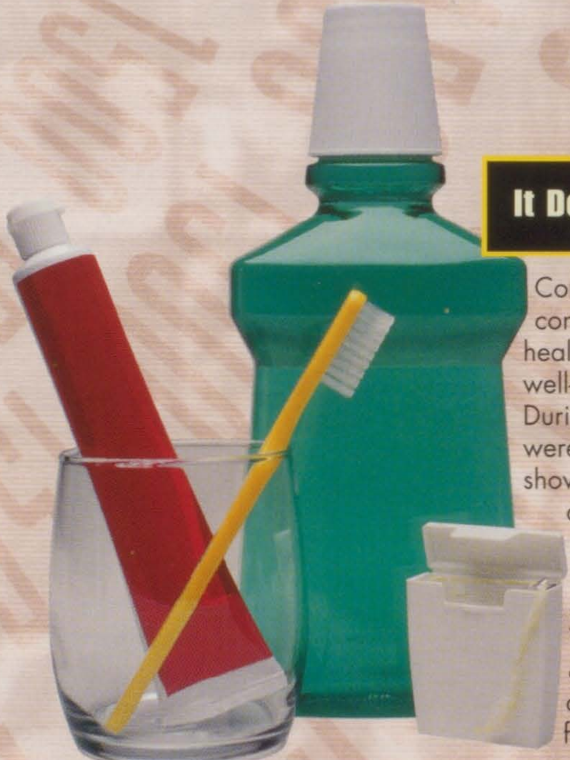
AP/Wide World

Despite numerous medical milestones, curing diseases such as AIDS and cancer eludes the population. In the '80s, Ryan White, a hemophiliac, contracted HIV through blood transfusions and later died. The AIDS virus is the latest epidemic civilizations have battled. The Bubonic Plague killed 40 million by the 14th century and the Typhoid Fever outbreak of the early 1900s claimed countless lives as well. Vaccines now prevent such diseases as smallpox, but any mutations could pose a threat again.



It Does A Body Good

Consumers have become more concerned about keeping healthy, germ-free and well-groomed from head to toe. During the Middle Ages, baths were rarely taken, but today showers and baths are taken daily in order to keep clean and healthy. Today toothpaste, deodorants and mouthwash are used daily. Vitamins and natural herbs are popular and medical advancements keep folks functioning better.

Numb And Number

Super Stock

Prior to the use of anesthesia during operations, early surgeons and barbers cut veins to drain "bad" blood, or sucked it out with leeches to cure patients. Boiling oil was sometimes poured on wounds to sterilize them. Before nitrous oxide and ether were introduced as anesthetics in the 1800s, most operations weren't performed at all. Surgical conditions were unsanitary, causing infections to spread rapidly.

The Fact of Life

In the Middle Ages, the average life expectancy in Europe was about 30 years; today it is more than 70 for both men and women. Improved nutrition, sanitation, disease prevention and disease treatment are some of the main reasons for the increase.

KFC, Arby's and Taco Bell have even sprung up in school cafeterias, airports, grocery and convenience stores. Would you like Beanie Babies with that?

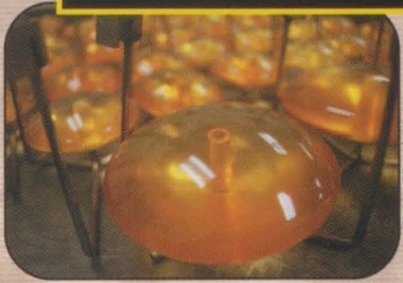
Live Longer! See Better! Be Slimmer!

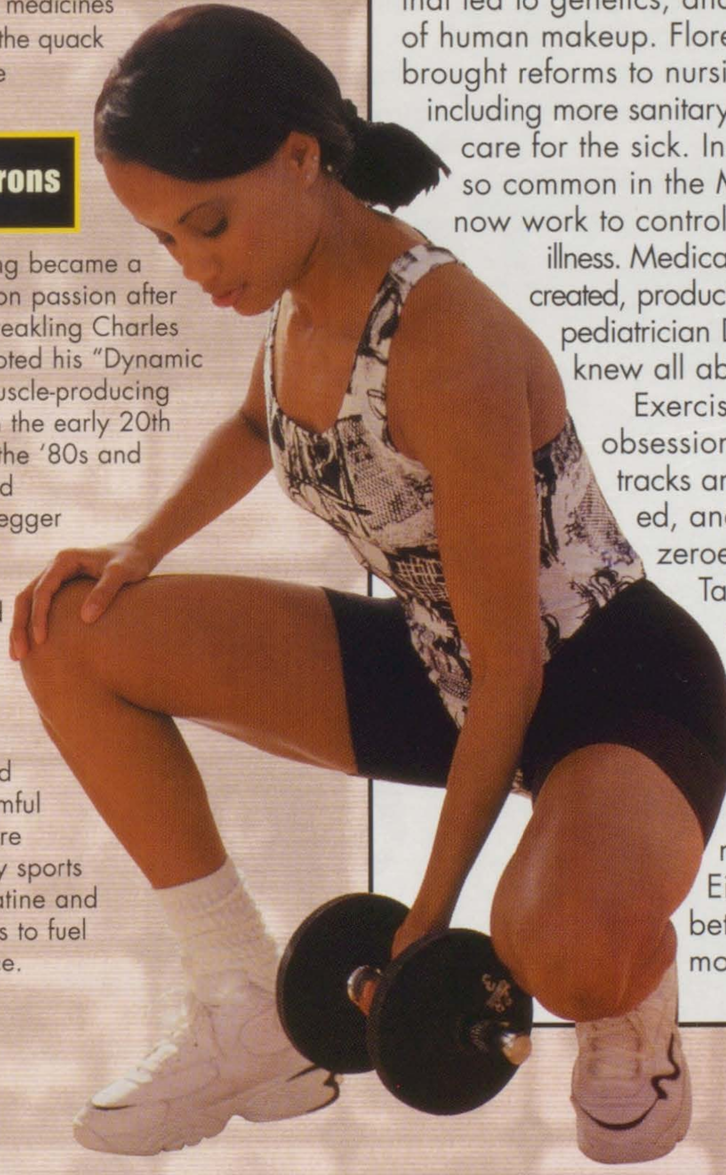


AP/Wide World

With the average life expectancy rising, people will try liposuction and tummy tucks, facelifts and collagen injections to stay younger looking. RK and LASIK procedures make contact lenses and glasses obsolete for many, and hearing aids are almost invisible. Heart, lung and other transplants give new hope, as do today's medicines compared to the quack cure-alls of the 1800s.

Curling Irons

Bodybuilding became a pumping iron passion after ex-97 lb. weakling Charles Atlas promoted his "Dynamic Tension" muscle-producing exercises in the early 20th century. In the '80s and '90s, Arnold Schwarzenegger wannabes bench pressed and lifted weights in the gym so they could burn fat and get fit. Harmful steroids were replaced by sports drinks, creatine and protein bars to fuel performance.



Health Yourself

The mysteries of medicine, better health and longer living were revealed as the millennium unfolded. Diseases prevalent in early times were conquered through improved medicine, sanitation, immunization and eating habits, although other factors such as high cholesterol, smoking and junk foods brought on such foes as heart disease, cancer and obesity. The Food and Drug Administration now ensures proper processing to kill bacteria and preserve foods longer.

In the 1800s, Austrian monk Gregor Mendel formulated the basic rules of heredity that led to genetics, and better understanding of human makeup. Florence Nightingale brought reforms to nursing in the19th century including more sanitary conditions and scientific care for the sick. Instead of the guesswork so common in the Middle Ages, doctors now work to control, cure and prevent illness. Medical specialties were created, producing such authorities as pediatrician Dr. Benjamin Spock who knew all about babies.

Exercise became almost an obsession as gyms, jogging tracks and Jane Fondas sprouted, and personal trainers zeroed in on targeted areas. Take a deep breath and say hello to yoga, stress reduction therapy, medications to feel happy/energetic/calmer, wrinkle creams, alternative medicines, just name it. Either people are living better or just becoming more high maintenance.

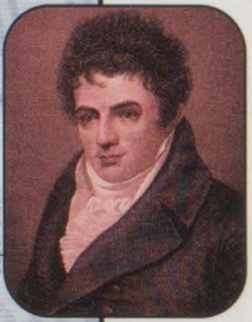
Coming And Going Attractions



Super Stock

Super Stock

Getting around was slow and hard during the beginning of the millennium but somebody had to do it. In the Middle Ages, horses got saddled with pulling wagons transporting goods and passengers for long distances. Viking ships found rough sailing to Greenland and later America, but compasses and better construction of vessels in the 1400s made voyages and overseas trade possible.

Canals and paved roads hastened travel in the 1700s and the first major U.S. Highway, the National Road, created road rage in the mid-1800s.

After Robert Fulton invented the steamboat, British inventor Richard Trevithick helped develop the locomotive. Life quickened as travel and hauling freight became more economical.

Electric trains, streetcars and gasoline-powered engines drove transportation into the modern era. Suddenly automobiles putt-putted along and sprouted everything from running boards to fins. Airplanes soared, subways roared and spaceships explored. The risks of progress have also been great, such as the loss of pilot Amelia Earhart and her plane on an around-the-world flight in 1937, the Space Shuttle *Challenger* explosion in 1986 and numerous airplane crashes.

Tomorrow's transportation could include human teleportation and faster-than-light travel. The ride's been pretty good so far, but inevitably some still ask, "Are we there yet?"

Gas Transit

Once steam-powered engines invaded 18th century Europe, a steam car, or horseless carriage, seemed a natural. The gasoline engine and pneumatic tire, however, made automobiles practical. Henry Ford's 1908 assembly line mass production of his Model T made owning a car affordable. This led to the growth of suburbs, superhighways, motels, road-trips, traffic jams, malls and, of course, fuzzy dice.

In the 1860s, the Central Pacific Railroad laid track eastward from Sacramento, California and the Union Pacific Railroad laid track westward from Omaha, Nebraska. The Transcontinental Railroad was finished in 1869 when both railroads met in Promontory, Utah. Coast-to-coast freight and passenger lines dramatically increased settlements and trade. Today's subways, light rail and ultra-fast bullet trains move commuters like crazy and make good action movie sequences.

Da Plane! Da Plane!

Leonardo da Vinci dreamed of flying machines with wings, but it took centuries to get the concept off the ground. The Montgolfier brothers were full of hot air when their balloon ascended in 1783. Orville and Wilbur Wright had the right stuff and flew the first successful airplane in 1903. Charles Lindbergh and Amelia Earhart flew far and solo, and Chuck Yeager broke the sound barrier. Today, airplanes carry millions of business, pleasure and military passengers. But airline food still hasn't improved much.

Sure beats getting seasick in a bumpy hovercraft or swimming it. In 1994, the chunnel made the world smaller by linking the continent of Europe and the United Kingdom via railway tunnel underneath the choppy English Channel. The high-speed Eurostar train can transport riders from London to Paris in just three hours. Will the future bring travel under the great oceans? Across the universe? Or back in time? Oops...that last one's already happening. It's called the re-introduction of the Volkswagen Beetle.

Sports gained popularity as time lunged forward. While forms of games resembling soccer were played during the 10th century, life rarely allowed time-outs for recreation. Thank goodness for the 1600s, when the English played Rounders, a baseball predecessor, and Scotland saw early rounds of golf. By the 1800s many people led the sportin' life, including James Naismith who invented basketball, and the students of Canada's McGill University who scored with the first hockey rules.

Native American athlete Jim Thorpe won fame in early 20th century Olympic track and field, as well as football and baseball. Babe Didrickson, his female counterpart, excelled in golf as well as track and field.

As baseball became a pastime and football a passion, Babe Ruth and Hank Aaron belted pitches "outta here," Jackie Robinson broke color barriers, Joe Namath threw footballs and John Elway busted Broncos loose in the Super Bowl.

Today sports revolves around such stars as heavy-hitter Ken Griffey, Jr., golf sensation Tiger Woods and hoops immortal Michael Jordan. Amateur and school sports are also serious stuff. Millions are on the fast track with NASCAR auto racing, on the edge for extreme sports and in the ropes for wrestling.

Before modern boxing was introduced in the 1700s, the sport was brutal, with no rest periods or gloves allowed. Jack Dempsey, Joe Louis and Rocky Marciano emerge victorious in the 1900s. How Did It Come Into Play?

Baseball, bowling and other familiar sports didn't just appear out of the blue. Here's a roster of some game origins.

Baseball: Cooperstown, NY 1839. Abner Doubleday based his new sport on bat-and-ball games such as "one old cat." He adopted the diamond-shaped field for his game and assigned playing positions.

Bowling: Germany, third century. Every German peasant carried a club called a kegel for protection. In church, faith was tested by setting up the kegel as a target (representing the heathen) and rolling a stone to try to knock it down. Those who succeeded were considered free of sin.

Fencing: Italy, 16th century. Fencing began in ancient times as the practice of swordsmanship to prepare men for duels and warfare.

After Thomas Edison invented the commercial motion picture machine, the Kinetoscope, in 1893, projection machines greatly enlarged a film's image. This led to one of the 20th century's most popular forms of entertainment, the movie. Sunny Hollywood beckoned such film directors as D.W. Griffith, who revolutionized film editing with *The Birth of a Nation* in 1915. Silent films made quiet stars of comedian Charlie Chaplin, handsome Douglas Fairbanks Sr., Rudolph Valentino and Jean Harlow.

In the 1930s, audiences heard voices when "talkies" caught on after *The Jazz Singer's* premier in 1927. Screwball comedies including *It Happened One Night* thrust such stars as Clark Gable and Claudette Colbert into the limelight. Alfred Hitchcock made classic thrillers, and *Frankenstein* was a chiller. *Casablanca* dramatized war and *Dr. Strangelove* spoofed it. Marilyn Monroe and Audrey Hepburn lit up the screen, and Charlton Heston found fame of biblical proportions. John Wayne saved the day, and James Bond was never shaken or stirred. The Rat Pack cruised the Vegas strip and the Brat Pack cruised the halls in *The Breakfast Club*.

Blockbusters have ruled recent movies. Sylvester Stallone punched up *Rocky*. Harrison Ford dodged madmen and meteors in *Star Wars* and *Raiders of the Lost Ark*. *Armageddon* and *Titanic* astounded audiences with their mega-dollar budgets. Tom Hanks, Julia Roberts and Will Smith became idols at 24-screen multiplexes.

Weapons flying past! Spaceships zooming above! *Bwana Devil* wowed tinted glasses-wearing crowds as the 3-D movie phenomenon burst from the screen in 1952. But high cost and poor quality made 3-D fall flat. Disney's *Captain Eo* gloriously revived 3-D in the '80s and became an audience-grabber at Epcot Center. Now seven-story IMAX theaters, IMAX 3-D technology and simulator rides truly immerse viewers in movies.

Fate of the Union

From the wilderness came a nation ready to fight for freedom and survive all odds. Native Americans had lived in the continent long before European explorers and colonists arrived in the 16th century. Thirteen British colonies formed, and the Revolutionary War erupted when England tightened control, and Paul Revere warned of the oncoming British invasion. Independence and the United States of America were both declared in1776.

The new nation weathered heat from France and Mexico, but acquired new territory such as the Louisiana Purchase. After gold in California was discovered in 1849, America heard the roar of the Civil War, Reconstruction and Native American warriors such as Geronimo. Industry growth fueled prosperity until World War I and the beginning of the Great Depression. Two heroines, Rosie the Riveter and First Lady Eleanor Roosevelt, emerged during World War II. Peace efforts chilled as the Cold War, Korean War and McCarthyism isolated the U.S. from Communist nations.

Life prospered in the suburbs and man rocketed into space, while civil rights struggles ignited. President John F. Kennedy was struck down, as were countless soldiers in Vietnam. Then President Richard Nixon struck out after the Watergate political scandal. The Gulf War, pollution and tragedies such as the Oklahoma City bombing hit hard in recent decades. Yet Americans still rally around the Stars and Stripes.

Star Spangled Gal

Betsy Ross was a well-known Philadelphia seamstress. In 1776, the young widow was approached by George Washington's Continental Congress committee to sew the first official U.S. flag per their 13 stars/13 stripes design. With the speed of Paul Revere, she finished it off as a July 4th accompaniment to The Declaration of Independence, which laid the foundation for the United States of America.

President Abraham Lincoln called it "A House Divided." Slavery was abolished and the United States became one nation again.

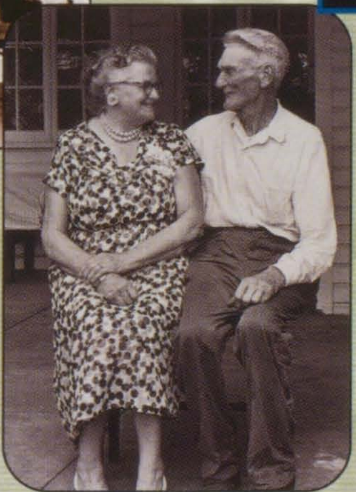
Since then, America has survived inflation, recession, tax cuts, and somehow, lunchroom food.

What Dream May Come

AP/Wide World

"I Have a Dream that my children will one day live in a nation where they will not be judged by the color of their skin, but by the content of their character," said Dr. Martin Luther King Jr. to Washington, D.C., protesters in1963. His non-violent approach helped advance civil rights for all races. Other warriors for racial equality include anti-segregationist Rosa Parks, and Jesse Jackson, who pushed for African-American economic power.

When It Was Grander On The Verandah



It was a simpler time called "The Good Old Days." The front porch, or stoop, was the nightly gathering place for several generations of family and friends. Evening breezes and conversation filled the air while a passing parade of buggies and neighbors moved past. Maybe it was the coming of television, indoor air conditioning or the faster pace of suburban communities that caused the front porch to disappear.

The Voice That Launched The Vote For Women

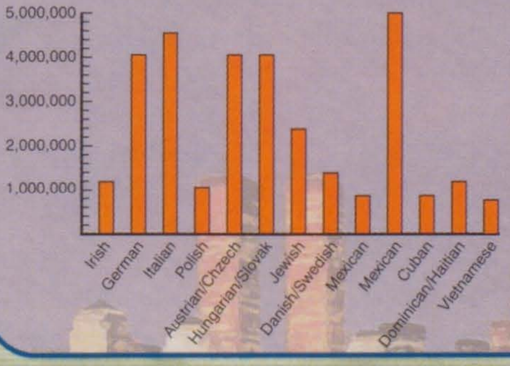
Her efforts led to passage of the 19th Amendment in 1920, giving women the right to vote. Other women's rights leaders furthered the cause, including Gloria Steinem and Betty Friedan. Role models such as astronaut Sally Ride and Supreme Court Justice Sandra Day O'Connor opened still more doors.

She Carries a Torch for Freedom



"Give me your tired, your poor, your huddled masses yearning to be free," beckons the Statue of Liberty. A gift to the United States from France in 1884, she has welcomed millions of immigrants to American shores with her towering presence in New York Harbor. Get The Message Already?

People spoke, wrote letters and sent messengers before this millennium but communication was usually local and slow. Most Middle Ages books were religious because church leaders were among the few who could read. Monks copied books by hand and town criers were heard since they announced news. Printed books of the Renaissance allowed the masses to read the Bible and other works. By the 1600s, newspapers enabled inquiring minds to read ship schedules. Benjamin Franklin helped establish regular postal service in the 1700s and the Pony Express ran mail cross-country in the 1800s. While steamships and locomotives sped the spread of news, it wasn't until Samuel Morse invented the telegraph in the 1840s that coded messages were transmitted rapidly. Cameras, the typewriter, telephone, phonograph and motion pictures put communications on an even faster track. Advances came in short and long waves when Guglielmo Marconi invented radio. Television was perfected, and tape recorders came into play. Since the 1960s, communication satellites relayed TV, radio and other signals across the planet. Computers and modems instantly processed data, and the Internet linked the world. Broadcast journalists, such as *20/20's* Barbara Walters, fueled the rise of information junkies. Fiber optics, VCRs, CD-ROMs and HDTV not only furthered technology but gave adults lots of expensive new toys.
